ZEST Before and After School Child-care

The Wraparound Care provision for both Infant and Junior pupils at Chandag Junior School is now affiliated with Chandag Infant School. Mrs Smart is the overall Manager of the club and Mrs Weeks is Administrating the Club. Please pop in and see Mrs Weeks at the Infant School or email the Childcare email address with any queries [Child care booking form](#)

A note from Mrs Savory

Welcome back to the new term and the timing of this newsletter finds us half way through January already! The children have settled back to their

routines and this week we had the exciting start with the Science Dome in our school hall once again. This is always a very enjoyable and informative learning experience for all the children which is long-lasting in their memory bank.

The PTA held their general meeting during the first week back and I would like to thank them and all their volunteers who work so hard in planning events to help raise the funds to purchase resources to enhance the school environment and learning resources. They funded the Science Dome event for the all the children—thank you! This term they are supporting the school with funds to purchase newer reading books in class rooms and to widen our stock of reading scheme books to support our younger pupils who are still developing their reading fluency. This will help us continue to drive forward in raising our standards in reading and helping us to create that love of reading amongst our pupils. This all complements the work we are doing to enhance our learning spaces and behaviours for learning in general. The staff team are committed to making changes to the class room learning environments and looking at ways to create more inviting book corners and generally enhancing the space we have. Please do look at our School Improvement Plan on our website under the Key Documents section (link above).

As you are aware, Mr Dunning continues to be absent from school. Whilst my capacity is stretched, the school team continue to work with passion and commitment to deliver a broad and balanced curriculum for all the pupils. Mrs Eve is continuing to support me with the SEN needs of the school and is in school weekly on Thursdays or Fridays.

May I remind parents that we are always willing to meet with you for any discussions and sometimes, you may be asked to have a quick chat with your child's class teacher at the end of the school day if you can. Should you wish to speak with your child's teacher, please set up a mutually convenient time via the office or if you are happy for a telephone call, that can also be arranged.

Recycling

We continue to promote awareness of our environment and the importance of reducing waste and recycling as much as possible. We currently have containers to collect crisp packets, used white board and felt tip pens and batteries. Please do send in any used up batteries you have to be recycled to fill up our buckets!

**Please name all
of your child's
belongings!**
